

Santa Cruz Reliability Project North

Proyecto de Confiabilidad de Santa Cruz Norte

UNS Electric, Inc. (UniSource), a subsidiary of UniSource Energy Services, has identified a preferred and alternative route for a new transmission line as part of the Santa Cruz Reliability Project North. The Preferred Route (formerly Route 2) and Alternative Route (formerly Route 1) will connect UniSource's existing Kantor Substation in Santa Cruz County to Tucson Electric Power's existing Canoa Ranch Substation in Pima County. Three other potential routes (formerly 3, 4, and 5) have been eliminated from further consideration. To view a map of the two proposed routes, please visit the project webpage.

Under state law, UniSource must secure a Certificate of Environmental Compatibility (CEC) from the Arizona Corporation Commission (ACC) before building the Project.

On September 19, 2025, UniSource filed an application for a CEC with the ACC.

The CEC application is available for review at the following locations:

- Joyner-Green Valley Library
601 N La Cañada Dr, Green Valley, AZ 85614
- Green Valley Chamber of Commerce
275 W Continental Rd #123, Green Valley, AZ 85622

- The Project webpage:

The Arizona Power Plant and Transmission Line Siting Committee will consider UniSource's application during an upcoming public hearing, which is open to all members of the public.

Please see the opposite side of this postcard for hearing details.

The hearing will commence on Monday, November 3, 2025, at 1:00 p.m., and will continue through Friday, November 7, 2025. A dedicated public comment session will be held on Monday evening beginning at 5:30 p.m., offering both virtual and in-person participation at the Desert Diamond Casino Tucson Conference Center. Additional public comments may be accepted at other times during the hearing, subject to the discretion of the Committee Chairman.

The public may also view the hearing online or listen in by telephone. At least 24 hours prior to the start of the hearing, details regarding virtual and phone access will be posted on the project webpage.

UNS Electric, Inc., una subsidiaria de UniSource Energy Services, presentó una solicitud de Certificado de Compatibilidad Ambiental (CEC, por sus siglas en inglés) para el Proyecto de Confiabilidad de Santa Cruz Norte, para la revisión del Comité de Ubicación de Plantas de Energía y Líneas de Transmisión de Arizona en una audiencia pública que comenzará el lunes 3 de noviembre de 2025, a la 1:00 p.m., y continuará hasta el viernes, 7 de Noviembre de 2025 en el Centro de Conferencias del Casino Desert Diamond Tucson, ubicado en 7350 South Nogales Highway, Tucson, AZ 85756. Se llevará a cabo una sesión especial para recibir comentarios del público el lunes, comenzando a las 5:30 p.m. Los miembros del público podrán compartir sus comentarios en person, por teléfono, o de manera electrónica. Para obtener más información, incluyendo ver las rutas preferidas, saber cómo participar de forma remota, enviar comentarios y obtener una copia de la solicitud del CEC, visite uesaz.com/proyecto-de-confiabilidad-de-santa-cruz-norte.
